Call Center Based Service

Why Transcom HVAC

Experience

- ✓ More than 24 years of experience
- ✓ Successfully completion of more than 850+ projects
- ✓ Having experience of working in multiple sectors

Professionalism

- ✓ Always fulfill the commitment with client
- ✓ Follow the strict code of ethics & accountable for actions

Long Term Relationship

- ✓ Working in numerous repeated projects of our clients
- ✓ Work for building faith of the client on us by providing proper support

Experienced Team

- ✓ Team comprises with skilled manpower
- ✓ Having ability to solve the problem perfectly
- ✓ Experienced Engineers for Designing, Project Implementation & Supervising

Financial Strength

- ✓ Transcom Group is one of the largest corporate house in Bangladesh
- ✓ Having adequate financial strength

Product Quality

- ✓ Representing world's renowned brands
- ✓ Using prime standard accessories
- ✓ Having the biggest stock of VRF units

360° Service Support

- ✓ Call center based service
- ✓ 24/7 on call service
- ✓ Zone wise service team

OUR BRANDS

SAMSUNG

Samsung is a South Korean multinational conglomerate headquartered in Samsung Town, Seoul. It comprises numerous affiliated businesses, most of them united under the Samsung brand, and is the largest South Korean chaebol (business conglomerate). Samsung was founded by Lee Byung-chul in 1938 as a trading company.

The Samsung HVAC Business Unit is a provider of total HVAC solution. As a true total HVAC & energy solution provider, Samsung supplies the largest buildings, hospitals and industrial facilities with central air conditioning systems.

OUR BRANDS

Since launching Korea's first residential air conditioner in 1968, LG has become a global leader in energy-efficient, reliable climate solutions. In 2006, LG introduced the MULTI V VRF system, pioneering advanced efficiency and performance with inverter technology and eco-friendly refrigerants. Subsequent generations brought innovative features like HiPOR™ oil recovery, vapor injection (MULTI V III), and Smart Load Control (MULTI V IV) to optimize energy use and reliability.

Tailored solutions like MULTI V S for mid-sized buildings and MULTI V Water for variable water flow applications expanded LG's offerings. In 2017, MULTI V S introduced breakthroughs like the Ultimate Inverter Compressor, Ocean Black Fin coating, and Dual Sensing Control.

Redefining HVAC in 2023, LG's Multi Vi, powered by an advanced AI engine, offers intelligent energy savings, corrosion resistance, remote upgrades, and Weather Reference Operation, delivering cutting-edge performance and exceptional user experiences.

OUR BRANDS

Daikin Industries, Ltd. is a Japanese multinational air conditioning manufacturing company headquartered in Osaka. It has operations in the United States, Japan, China, Philippines, Australia, India, Southeast Asia, Europe, and South America.

Daikin is the inventor of variable refrigerant volume systems (or VRV by Daikin air conditioning, other manufacturers remarked this as VRF). Daikin is committed to explore and adopt cutting-edge technology, in order to continually offer value-added and solution-based products and services to customers. The Group currently holds the prime share of the air conditioning market in Japan, and is the leading performer in VRV technology.

Being a leader in creating clean and fresh environments means that Daikin develops quality products that are both innovative and lower Earth's carbon footprint.
